

HEALING S U M M I T

March 2016, CREATING A NEW WORLD

The HEALING SUMMIT – COMMITTED TO HEALING, organized by Healing Hotels of the World, and now in its 3rd year, is a conference that presents all aspects of a holistic lifestyle.

The title of this year's conference was "Creating from the Core of Goodness: Life, Business, World".

There is a world-wide movement, a waking up, based on the understanding that we are responsible for our personal wellbeing, our destiny and how we treat our fellow human beings and the world. It is a shift of values from exploitation of ourselves, others and our environment towards a more sensitive and healing understanding of who we are and what we do. It acknowledges that at the core of our being we want goodness in our lives.

The HEALING SUMMIT addressed the different topics of the new worldview.

On an economic level it revolved around the question how we can redefine business success to create a soulful economy that diminishes the inequality of our world. It showed the interconnectedness of our own healing lifestyle with the business practices of the future. Business leaders gave examples of how they created a business based on these new paradigms.

A holistic lifestyle implies the awareness of the relation between body, mind and soul. The HEALING SUMMIT provided space for the ancient wisdom of different cultures that do not only have a deep understanding of this relation but also of our bond with nature and the spiritual realm.

At the HEALING SUMMIT a cosmopolitan audience, including delegates from Saudi Arabia, China and Russia, explored our global identity and what mankind has in common albeit all differences.

"You must be the change you want to see in the world." (Gandhi). At the HEALING SUMMIT leading personal development experts showed ways how to realize that. This made the HEALING SUMMIT a unique conference that did not only provide knowledge in regards to what to do but also about how to be the best version of you.

The speakers as well as the delegates of the HEALING SUMMIT 2016 came from 27 countries, encompassing business leaders from different industries, who understand that the world is rapidly changing into a new direction.

The aim of the HEALING SUMMIT is not only to share knowledge but also to allow like-minded people to find an atmosphere of mutual support and the encouragement to take a necessary step into the future.

In years to come the HEALING SUMMIT will branch out to different other continents and cities such as Shanghai and New York.
