## HEALING SUMMIT

*Cologne, Germany, May 29, 2019*-- HEALING SUMMIT 2019, an intimate international conference produced by the boutique hospitality brand Healing Hotels of the World, which took place in the Algarve region of Portugal, has concluded. This year's theme, "Take a Quantum Leap", truly resonated with all who attended. Turning the typical business model of a conference on its ear, a quantum leap was achieved by the energized atmosphere created by the participants.

Socially conscious speakers from the fields of investment, science, healing modalities, mission-oriented organizations and travel joined with participants to create an extremely collaborative and congenial environment.

Healing Hotels of the World's annual HEALING SUMMIT has forged a path and created a totally integrative experience, melding the opportunity for personal development with shared expert information.

The ability to bond and connect deeply with speakers and participants alike was initiated by early morning ocean plunges, yoga practiced under towering pine trees, calming guided meditation, and healthful fresh juice breaks featuring inventive vegan snacks.

Believing that the only way to improve our world and create a more enriched and joyful society is to begin with an inner change, the HEALING SUMMIT presented topics addressing how to make a quantum leap in commerce, health and wellbeing, travel and in ourselves.

HEALING SUMMIT 2019 took place in Albufeira, Portugal at Pine Cliffs Resort, a Healing Hotel of the World member. Featured speakers included **Sarah Collins**, creator of "Wonderbag" a product that provides a much needed cooking methodology for millions of women in developing countries, **Heidi Kuhn**, founder of the not-for-profit, Roots of Peace, an organization dedicated to eradicating landmines around the world, **Adam Rockefeller Growald**, of the Rockefeller Family Fund, who seeks investments in socially conscious projects and **Arta Dobroshi**, an actress from Kosova who lived in a devastated war town country through a terrifying time, yet was taught by her parents to live a life of joy.

Anne Biging, CEO of Healing Hotels of the World and co-founder of the HEALING SUMMIT expressed what truly affected her. "What touched me most was this beautiful bond between all participants. In an almost magical way, we took a quantum leap together – for each of us in a very personal way. For me, it was fascinating to observe that at some point my mind shifted into a beautiful, peaceful, and creative space where we all connected. What a gift!" Dr. Elisabeth Ixmeier, CCO of Healing Hotels of the World, and co-founder of

HEALING SUMMIT was astonished by the experience. “I do not know how it happened, but someone called the HEALING SUMMIT 2019 a ‘special moment in time.’ The mixture of high quality speakers providing heart opening content, expert healers creating personal experiences, physical activities fostering community, and the abundant beauty of the environment, converged into creating uplifting magic.”

The gathering at the HEALING SUMMIT epitomized what it means to take a quantum leap by fully integrating all aspects of ourselves and building a strong community of individuals, transformed by the HEALING SUMMIT experience.

Plans are already underway for HEALING SUMMIT 2020. The date and location will be announced shortly.

### **About Healing Hotels of the World**

Healing Hotels of the World, a member based global brand encompassing over 100 of the best healing hotels and resorts around the world, sits at the intersection of the health and wellbeing, and hospitality industries.
